Monywa, Sagaing

OBJECTIVE

An active learner who wants to overcome with new challenges and who is seeking an opportunity to explore the world with Software Development. An active member who is always ready for any tasks in the team.

EXPERIENCE

ThadarArrMan Charity Group

2018 - 2020

Volunteer

Met with orphans who were cared by Burmese monk and patients who felt very severe disease from Mandalay. We prepared lunch for them by our team in 2018 and 2019.

I CAN READ

June 2022 - Present

Assistant Teacher

Work as an assistant teacher in learning English to young learners.

EDUCATION

Myanmar Institute of Information Technology

2017-2020

Computer Science and Engineering

PROJECTS

Sale Data Analysis using Python Programming Language

We analysed the sale data from a convenience store. Using python's data science, we could give best advices to improve not only monthly but also yearly sale rate of store easily and fastly by showing with many types of graphs.

Basic Ecommerce Website using Bootstrap and React

I have studied Full Stack Development course from Coursera and I wrote that project as my final assignment.
